Dear Mr. Statham,

There have been serious miscommunications or misunderstandings concerning Mr. Bill Ruic, myself and Jack Locke,

Mr. Locke called me up a few months ago and asked if I would share my hanger with him so that he could put a Cessna 150 in it and I agreed. The next thing I know is that my airplane was moved out of the hanger and some boats were moved in. I am also missing some tools and things that were in my hanger.

Bill Ruic had his equipment removed and there is some equipment that is missing, such as a pipe bending / exhaust manufacturing machine.

I believe that I told you that I would guarantee bill Ruic's hanger rent if necessary, but I have never heard a word from you on that.

Mr. Ruic's trial was held on August 6, but the judge has yet to ruled how much money he is owed, although it is several hundred thousand dollars. Bill is 85 years old and I am 82. Both of us have had a long been involved heavily, with aviation. I actually started Ram aircraft in Waco Texas and still own an airport on Lake Texoma, in Texas.

Bill Rick has owned and operated several airports and has worked for the FAA. He is well thought of by the FAA and should be given more respect.

There is no point in going to war over these matters, but we need to reach an understanding, Or there will be a battle.

Sincerely, James P Neill, Esquire

P. S. Were you involved in a Mooney gear up accident at the Bluntstown airport?
