RE: Tree Issue, Airport Glide Slope

Gerald and Etal:

As you are probably aware, you own property to the immediate north of the Tri-County Airport. In working with the Federal Aviation Administration and our local aviation engineering firm, it has been brought to our attention that two trees on your property are encroaching the airport glide slope and are interfering with aircraft landing at our airport on instrument approaches:

To remedy the problem, we need to cut these two trees (at no cost to you). We ask that you please sign, date and complete the enclosed written permission form to help expedite this. I have enclosed an addressed, stamped envelope for your convenience.

If you have any questions or concerns, I invite you to call my cell phone at 770-329-5400, and thanks.

Sincerely,

Ross E. Statham

Tree Removal Permission Form

I hereby grant the Tri-County Airport Authority and their designees to enter my property and to cut the trees indicated on this graphic, which have been flagged by the US Federal Aviation Administration as a hazard to air navigation:

We confirm that this will be performed at no cost to ourselves.
