NOTES:

Two spindles and the spindle belt were replaced on the SCAG mower by Lanes Outdoor equipment for a total cost of \$400.45.

The Jet A pulser and vapor barrier were replaced by Southern Petroleum Systems (S.P.S.) in order to make the Jet A fuel farm fully operational. We are still awaiting the bill from S.P.S., so we do not yet know the cost of this repair.

There was a short water outage at the FBO (less than 24 hours) caused by a short in the well wire due to insulation degradation. The wire from the well head to the pump control box had to be replaced. The total cost for this repair was less than \$20.

Airport Fuel Report
