

GRANT ACTIVITY – 3 FEBRUARY 2022

A resolution needs to be signed to give Jack permission to sign the grant for the second round of COVID funding. The types of expenses that the funding can be used to reimburse have changed from when the funding was originally offered back in July 2021. Chastity Clark with FAA stated that the \$32,000.00 in funding is still available. AVCON is to prepare the resolution so that we can submit the application to FAA. Once the FAA receives the application, they will prepare the grant documentation for the chairman to sign.

No other grant activity for the month.
