Re: **Technology Report**

Date: August 2, 2022

During the previous month, several changes were made to the website which reflected changes to policy as well as other routine maintenance items:

- Main page was tweaked to remove reference to our advertising for an engineering firm as well as checking and tightening up verbiage
- The new Liability Insurance and Flyable Aircraft Policy and Procedure was added to the site
- A new Policy and Procedure page was created
- The airport rules and regulations page was tweaked to include this new policy and other clarifying language
- The "lease application" and "hangars" pages were tweaked to remove language about the annual payment discount
- The "pilots" page now includes information about birds on the field with a note that we are working to resolve the issue

An email was sent to the board letting them know that dedicated email addresses were available to any board member. If that's something you want, just ask.
